EDUCATION

Government College of Engineering   Amravati, Maharashtra
Bachelor of Technology in Computer Science and Engineering CGPA: 7.80   *2015 - 2019*

WORK EXPERIENCE

TruthSuite (YCombinator W23)   Remote
Lead Engineer   *Feb 2024 - Present*
- Building an AI Legal Assistant and Document Summarisation Tool for law firms.
- Built a platform from scratch for fine-tuning open-source LLMs, running inferences, and managing datasets, which helped us acquire our first 10 customers.
- Developed a web app capable of launching a chatbot on any webpage, with over 1,000 daily active users.

TopTime and TheHyperBrand   Delhi
Co-Founder   *Apr 2023 - Jan 2024*
- Built a platform that generates SEO-optimized AI blogs and social media posts—complete with keyword and backlink research—to boost traffic and lead quality, while reducing SEO costs by 40% compared to traditional agencies.
- Developed all components (Backend, Frontend, Mobile, and DevOps) for TopTime and TheHyperBrand.
- Successfully onboarded 20+ paid customers for TheHyperBrand, including a company funded through Shark Tank.

upGrad   Bengaluru
Software Engineer 2   *Oct 2022 - Mar 2023*
- Transitioned a monolithic service to microservices, reducing average latency by 40% to 120ms.
- Managed migration of 100M+ data, including the creation of validation utilities.

Here Technologies   Mumbai
Software Engineer 2   *Oct 2021 - Oct 2022*
- Integrated real-time dynamic incident content into HERE Maps to enhance situational awareness.
- Designed and developed an interactive dashboard for visualising alarms and alerts, streamlining application verification and accelerating incident response—saving approximately 30 mins of developer time daily.

- Enhanced map matching of incidents, resulting in a nearly 20% improvement.

GlobalLogic
Software Engineer

Nagpur
Jul 2019 - Oct 2021

- Worked on multiple projects as a backend engineer. One of them was developing & integrating the purchase flow of add-on services for an automobile company's portal.
